Flower Farm Hand

Description:
The “Flower Farm Hand” will be working at 56 Landon Lane, Sheridan, Wyoming in our greenhouse, flower field, and barn. This position has a great deal of task variety, so it would be great for someone who likes to do a few different things throughout the day.
This position will work directly with the Greenhouse Manager to ensure that plants are well maintained and harvested in a timely manner. This position will be tasked with making weekly flower bouquets for farmer’s market, CSA shares and farmstand sales. This means you will have to efficiently harvest, clean, and arrange mixed bouquets. To ensure flowers remain a profitable enterprise you will be asked to arrange with speed.
Each plant variety will require a unique approach to seeding, fertilizing, watering and harvesting. We are looking to train someone who pays attention to detail!
We arrange flowers in a wildflower look and we are willing to train for this aesthetic.
There will also be some vegetable farm related tasks on occasion. As we are also a working vegetable farm.
This position will also assist with receiving and organizing harvested vegetables from the field, including ensuring all are labeled and stored appropriately. This may include prepping for retail or farmers markets in appropriate retail packaging.
This position will assist the Greenhouse Manager with nursery related tasks on occasion (seeding).
This position may assist weekly salad washing and bagging.
